Vampire diaries season 7 episode 14

The Vampire Diaries tells the story of supernatural beings trying to survive in a city called Mystic Falls. The show's love stories and action have attracted viewers, and it doesn't hurt that the series has one of the most attractive casts on television. So it makes sense that we'll miss seeing them every week when the show ends after season eight. But this is not the end of the road for the career of actors. Here's what's next for the cast of the show. Ian Somerhalder Ian Somerhalder in The Vampire Diaries | CW fan favourite Damon Salvatore is sarcastic and dark, but has a romantic side. The actor really attracted fans and even staged a few episodes of the show. Together with the actor Paul Wesley he was a great driving force of the show. After actress Nina Dobrev left The Vampire Diaries, the show's creator, Julie Plec said she would continue the show as long as Somerhalder and Wesley stayed. So it's not shocking that the show is ending now that the actors are done with it. Somerhalder told him what the role meant to him. I am so grateful for those who have fought for me to have this opportunity (they know who they are), for those who have worked so hard to make this show a reality, and those who have watched it faithfully and made it a part of their lives. This show has enriched my life, bigger than anything I've done in my career, and it will live in my heart. We are a family and I will miss you. Thanks again to this amazing cast and crew, Kevin, Julie, Warner Bros., The CW and the most loyal fan base the world has ever seen. Wow, what a ride. So will Somerhalder work in front of or behind the camera after the show? He finished a movie called Time Framed, in which he plays a secret agent on a mission. Hopefully this means we'll see the actor more on the big screen. Paul Wesley Paul Wesley in The Vampire Diaries | The CW The actor plays the younger Salvatore brother Stefan. He is the first to win Elena's heart, but eventually his love story involves new people. He is also more focused on his brother's well-being. The hot actor has worked on some films outside the show over the years, and it looks like he will continue to focus on his film career. He will work on Convergence, which will come out next year. It's a sci-fi film that will play Wesley but hasn't yet announced who else is involved in the project. Kat Graham Kat Graham in The Vampire Diaries | The mighty witch Bonnie Bennett was able to protect and help her friends throughout the show. Since The series has lost a friend, fallen in love and fought several villains. The actress did a good job of depicting her character's journey. So what's next for them? You'll see Kat Graham in other movies, including Where's the Money, All Eyez on Me and QQ Speed. Hopefully she'll make music again. Candice King Candice King in The Vampire Diaries | The CW The actress plays the smart and persistent vampire, vampire, Forbes. Her character has definitely changed over the course of the seasons from her first role as a young and naive student. Unfortunately, no future projects have been announced for the actress, but she has been quite busy for many years and recently had a baby. So we don't blame her if she's only enjoying her family for a while. Zach Roerig Zach Roerig in The Vampire Diaries | The CW The Actor is one of the few who have been able to play a character in the show who remained human. His character has evolved from a golden young footballer to a policeman who has a hard time dealing with the supernatural. The good news is that you don't have to wait long to see the actor again. He will be in the year of the spectacular men who will come out this year. He will also be in Rings, the third part of the Ring franchise. Nina Dobrev Nina Dobrev in The Vampire Diaries | The CW The former lead actor played Elena Gilbert, a high school student who meets and falls in love with a vampire. It was her story that began the show, but the actress left after Season 6. Since then, the show has put her character on the back burner, but now that she's ending up working on it? The actor was busy making movies, and three of them will be released next year. Her projects are Arrivals, Crash Pad, xXx: Return of Xander Cage and Flatliners. Steven R. McQueen Steven R. McQueen in The Vampire Diaries | The CW You know him as Elena's little brother Jeremy Gilbert. He falls in love with Bonnie and becomes a supernatural hunter. He is also making an exit from the show in Season 6. Luckily, he's still on TV playing Jimmy Borelli in Chicago P.D. and Chicago Fire. His character is a firefighter in both shows, and it doesn't look like he's going anywhere. Matthew Davis Matthew Davis in The Vampire Diaries | The CW The actor plays Alaric Saltzman, an educator who is very aware of the dark side of the world. He was the heart of the show as the man surrounded by supernatural creatures. Before the series, he appeared in several entertaining films such as Legally Blonde and Pearl Harbor. However, he did not list any more films after the end of the show. But given his CV, we have high hopes that we will see him again. Michael Malarkey Michael Malarkey and Kat Graham in The Vampire Diaries | The CW Malarkey is a new addition to the cast, and he plays a vampire named Enzo St. John. If you love him from the show, you can catch him in the short film Oliver's Landing. Unfortunately, this is the only project he has at the moment, but hopefully it's a sign that we'll see him after the show.
